Re: Aaron Gaudern

To Whom This May Concern;

Aaron Gaudern worked for Casework Technologies, Ltd. Co. during our project, Rocky Mountain Bank, in Jackson Hole, Wyoming. Aaron work in the capacity of installation carpenter as well as our site supervisor and liaison to our customer. In both these capacities Aaron fulfilled his duties with exemplary performance. His attention to detail and quality if installation work were reflective in the successful completion of this very custom orientated wood work project. I highly recommend Aaron to any company who considers his services.

Sincerely

Tony Perno, Owner  
Casework Technologies, Ltd. Co.
